National Association of State EMS Officials

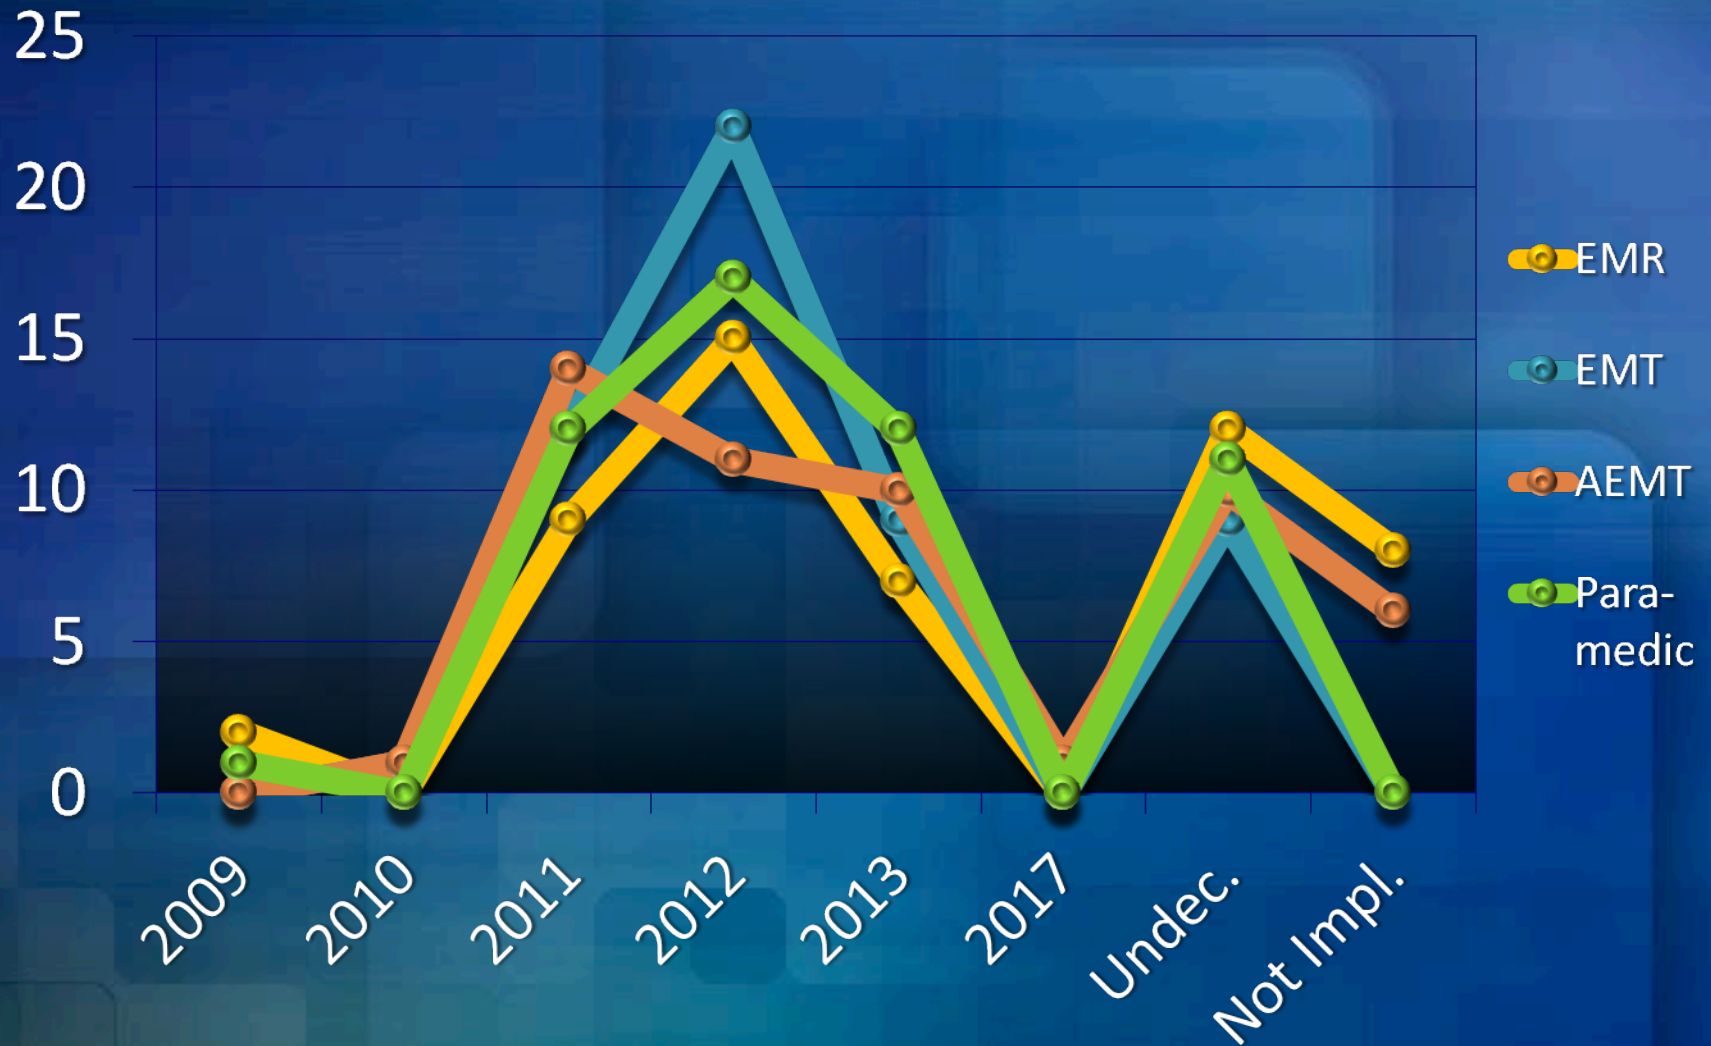

Background

- NASEMSO led the development of the *National EMS Scope of Practice Model* which recognizes the responsibility of the State regulatory process to help assure the protection of the public.
- NASEMSO has taken the lead in coordinating implementation of the *EMS Education Agenda* within the states and among partner organizations.
- Annual surveys are intended to reflect the progress in statewide implementation of the *Education Agenda*.

NASEMSO Implementation Survey

- Data collected since 2007 (“dot” survey)
- Poll, unscientific
- Current results reflect data collected in Fall 2011
- High rate of return (n=53)
- 50 states
- District of Columbia
- US Virgin Islands
- Commonwealth of Northern Mariana Islands

Implementing SOP Model as a Foundation

Implementation Trends--Foundation

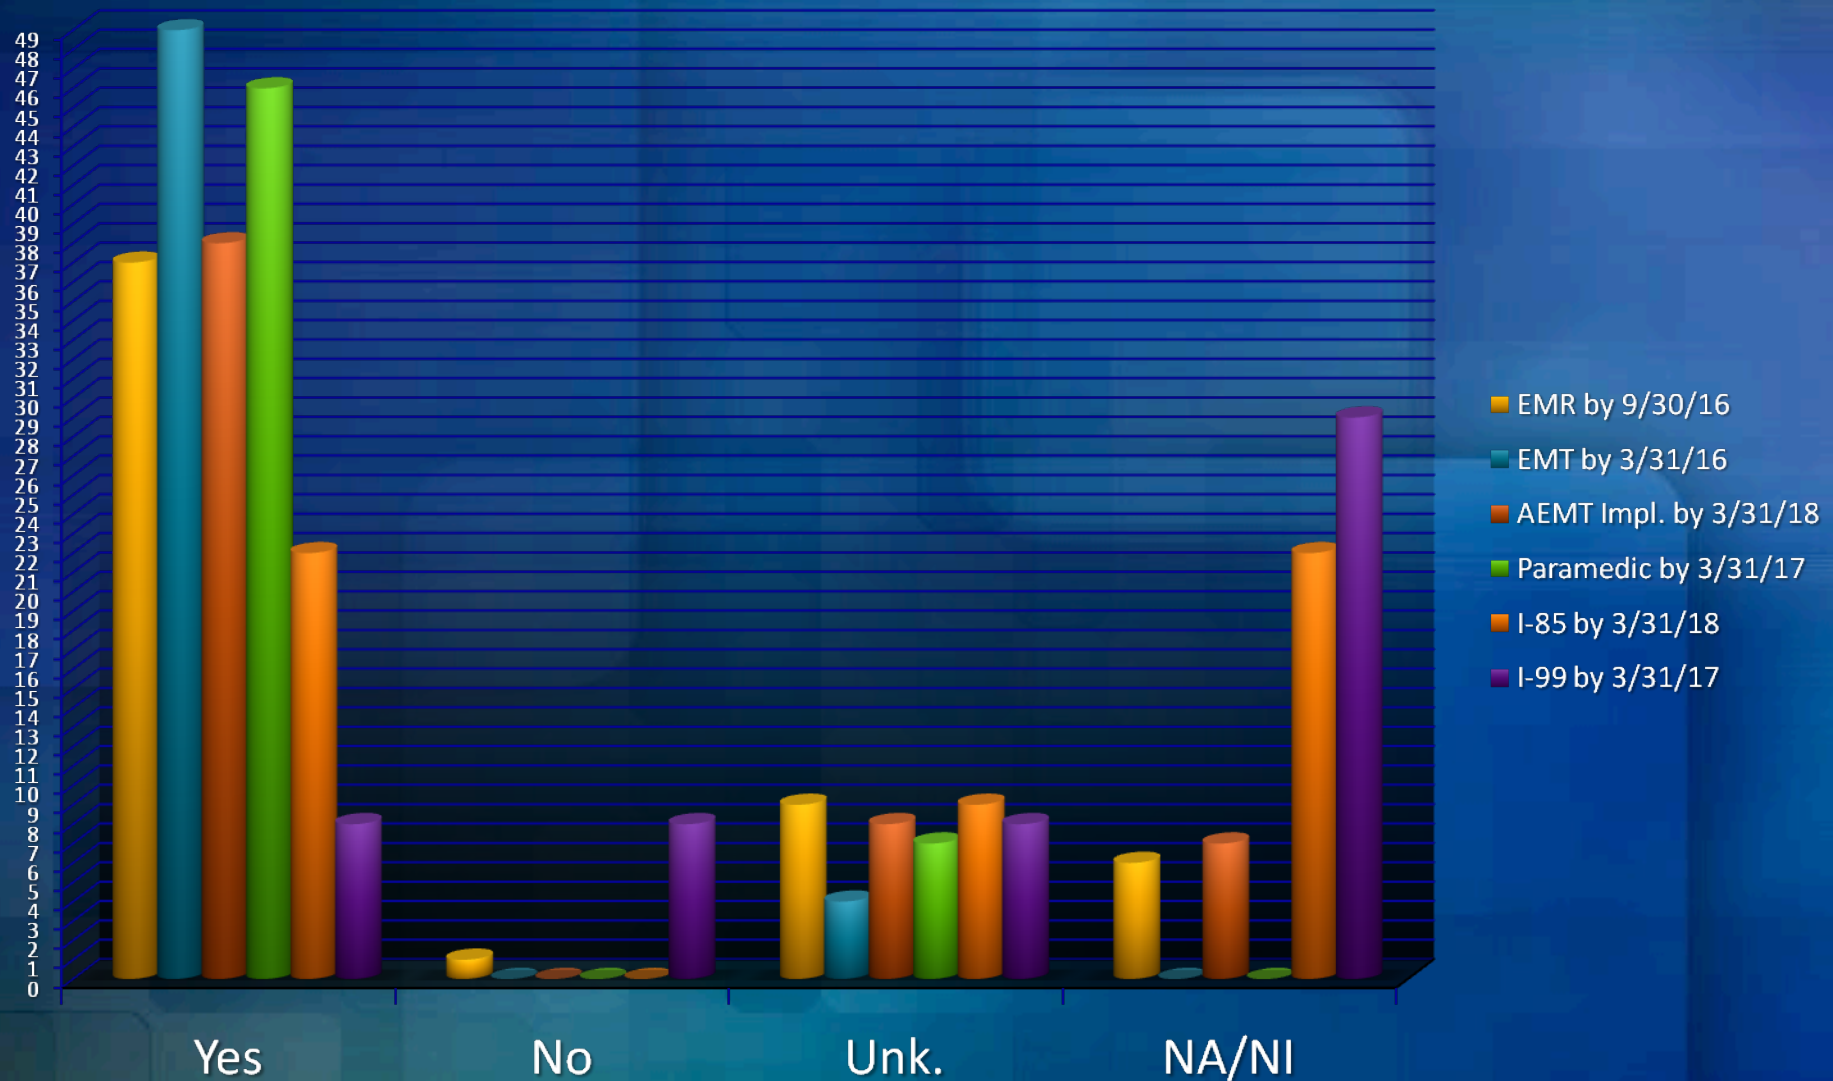

- Since 2007—
 - Roughly 20% increase in states using SOP levels as a foundation at EMT and paramedic levels
 - 18%- 22% increase in states planning to implement EMR and AEMT levels
 - To date, NO state has indicated they will NOT implement National Models for EMT or Paramedic
 - No plan to implement level in state:
 - EMR – 23%
 - AEMT– 11%
